BRITISH INTEREST CENTRED ON CONTACT BETWEEN CZECH GOVERNMENT AND THE SUDETENS

Ambassador Returns To Berlin: No Note For Germany Or Personal Letter For Hitler

Premier Reports To King On Developments In Situation

London, August 31. THE BRITISH AMBASSADOR, SIR NEVILLE HENDERSON, who was present at the British Cabinet meeting yesterday morning, left by air for Berlin this afternoon with a full and intimate knowledge of the minds of the British Cabinet members.

CONTRARY TO REPORTS, Sir Neville Henderson is not taking a note to the German Government nor a personal letter from the Prime Minister, Mr. Neville Chamberlain, to the German Chancellor, Herr Adolf Hitler.

It is authoritatively stated that British interest is at present centred on contact between the Czechoslovakia Government and the Sudeten Germans.

Diplomatic discussions on the Czech situation were continued in London this morning when Lord Halifax saw Sir Neville Henderson for a short conference before the British Ambassador returns to his post in Berlin by air this afternoon.

Later in the morning Lord Halifax saw the American and French Ambassadors consecutively.—(Reuter Bulletin).

U.S. Warmly Commends British Policy In Czech Issue

WARNING NOTE TO GERMANY HINTED

Washington, Aug. 31. President Roosevelt, at a press conference today, declined to make a statement on the European situation saying that it was best not to make any comment at present.

Firm maintenance of the British policy in the Czech issue is widely commended in the United States.

It is felt unofficially in Washington that the United States should sit tight and let British and French diplomacy by the first line of defence against any breach of peace though some papers speculate as to whether the United States should not take more specific action in an effort to maintain peace.

The Washington Post, for example, says that the time has come for the administration to address a brief and explicit warning to Germany on the Czech issue.—(Reuter Bulletin).

FUNERAL OF MILLIONAIRE

The last remains of the millionaire, the late Mr. Chun Bing-him, which was encased in an expensive coffin, richly decorated, as seen on the left, was borne on the shoulders of 32 coolies. On the right is a view showing the large crowds which jammed Praia Grande, Macao, outside the late Mr. Chun Bing-him's residence.

JAPANESE LOSE THOUSANDS IN JUICHANG SECTOR

Sanguinary Fighting Continues On Both Banks Of Yangtse

Hankow, August 31. Sanguinary fighting continues on both banks of the Yangtse, according to a Chinese military communique.

The Japanese were repulsed in attacks on Chinese positions two miles to the west of Juichang and also on the Kluikang-Nanchang railway to the south of Kluikang.

The communique asserts that in the Juichang sector the Japanese suffered two to three thousand casualties while on the railway they left behind large quantities of ammunition and thirty dead. Chinese positions to the south of Juichang are still intact despite repeated Japanese assaults.—(Reuter).

WATER SUPPLY RESTRICTED

The Colony's water supply is to be further restricted as from today. The hours of supply to all districts on the island and in Kowloon and New Kowloon will be 6 to 11 a.m. and 4 to 9 p.m.

PROMINENT P.I. BUSINESS MEN IN COLONY

Mr. A. Barretto And Mr. D. Aldecoa

Arriving by the Empress of Russia yesterday morning from the Philippines were two outstanding Manila residents. Mr. Alberto Barretto, former Minister of Finance in the Philippines, Mrs. Barretto, and Mr. D. Aldecoa.

Mr. Barretto was surprised at the improvement in Hong Kong, new buildings, hotels, roads, wharves and especially Kowloon and the extending territories. His last call of many years ago draws quite a contrast. "Business and my various duties have kept me chained down in Manila, so to speak," he smilingly reported.

Successful Drive By Fish Mongers

Patriotic donations, amounting to \$6,000 were collected on Tuesday by the fish mongers in their offer of carps to various shops.

The novel way of soliciting contributions which met with enthusiastic response has a tinge of superstition. To the Chinese a carp signifies profit as the Chinese name for the fish "li" has the same pronunciation as the Chinese word for profit.

Fish mongers presenting carps to the shops were therefore welcomed and generous donations were made. The largest donation was from the Lok Hing Ho, which gave \$1,600. Dao Heng Ngan Ho, a native bank, contributed \$1,200, and Shung Hing Pharmacy \$500. Many shops gave \$100 each.

Encouraged by the results, the fish hawkers have decided to extend their patriotic fund drive for three days.—(Central News).

EURASIA AIR SERVICE TO BE RESUMED

The Eurasia passenger and mail service between Hong Kong and Hankow will be resumed today, according to Mr. D. D. Li, General Manager of the Eurasia Aviation Corporation.

Mr. Li arrived here from Kunming via Hanoi by an Air France plane yesterday in company with Herr Hultz, technical adviser of the Corporation.

A Eurasia plane left Hong Kong for Hankow yesterday with mail says Central News.

WIDE AUTONOMY ASKED FOR

Prague, August 31. Hitherto there is no indication as to how the Sudeten Germans will reply to the Czech President, Dr. Benes' initiative.

The radical elements of the Sudetens prefer no compromise and would delay things until Herr Hitler has had an opportunity to make a dramatic gesture at the Nuremberg Congress.

On the other hand, a considerable section ask for nothing more than a wide autonomy within the Anschluss.

German Naval Manoeuvres

Berlin, August 31. The annual autumn manoeuvres of the German navy are at present taking place in the North Sea.

Sixty units which had been present recently at the naval review before the Hungarian Regent, Admiral Horthy, and the Fuehrer at Kiel, including the battleships Gneisenau, Admiral Graf Spee, Admiral Scheer, Deutschland and the cruisers Nuernberg, Leipzig, Koenig and Koenigsberg, are participating.

The autumn manoeuvres of the German fleet are a part of the annual training programme of the German Navy and are usually held in August and September.

The progress of the German sea armaments permits for the first time the participation of a 25,000-ton battleship and a bigger display of new destroyers and submarines.—(Transocean).

Paris, August 31. Seven convicts of the penal settlements in French Guiana have escaped. No further details are disclosed in the news received here today.—(Transocean).

BLACK-OUT IN COLONY: OBJECTS EXPLAINED

Radio Talk By Air Raid Precautions Officer

Wing Commander A. H. S. Steele-Perkins, Air Raid Precautions Officer, gave a detailed talk over Z.B.W. last night on the forthcoming black-out. He explained the object of the exercise and the various measures to be adopted by the public in preparation for the event.

It has been decided by the Government to hold an air raid black-out of the Colony, said Wing Commander Steele-Perkins. This black-out will be on somewhat different lines to the previous ones, in that the actual time and date of the black-out will not be promulgated beforehand.

The object of the exercise is: (a) to ascertain the speed with which all lights in the Colony can either be extinguished or obscured; (b) to test whether the lessons learned from previous black-outs have been applied.

For the purpose of the exercise there will be a "precautionary period" of seven days, followed immediately by an "air raid warning period" of 72 hours. It is during the dark hours of the latter period that the "air raid warning" will be sounded.

The "precautionary period" will commence at 8.30 p.m. on Thursday, September 1, and will end at 8.30 p.m. on Thursday, September 8.

The "air raid warning period" will commence at 8.30 p.m. on Thursday, Sept. 8, and will end at 8.30 p.m. on Sunday, September 11, unless the "air raid warning" signal has been sounded before this latter time and date.

In any case lights may be switched on and the exercise considered as completed 45 minutes after the sounding of the "air raid warning" signal.

MINIMUM. The objects of the "precautionary period" are, firstly, to enable Government and civil departments, owners of factories and houses etc.

to prepare their own individual plans for darkening their premises and/or grounds, and to collect during this period the necessary materials required to carry their plans into effect immediately the "air raid warning" is sounded, and secondly, to enable any light screening devices or alterations to present lighting arrangements to be put in hand so that on the "air raid warning", sounding the premises can be put into a complete state of darkness with the minimum of delay.

C.N.A.C. Plane Film To Be Shown Today

A newsreel showing the wreckage of the China National Aviation Corporation plane Kwelin, which was shot down by Japanese machines near Changkai, will be an added feature for three days, beginning today during the regular showings at the Queen's, Alhambra and Central Theatres.

The special film, a production of the China Motion Picture Co., will include actual shots of the salvaging work of the plane, mail bags, passengers' baggage, bodies of the victims, and the bullet-riddled wings of the plane.

Mr. H. L. Woods, the American pilot of the ill-fated machine, relates in English briefly what happened during the time when his plane was attacked and sunk by the Japanese planes last week.—(Central News).

Gillette reduces your shaving costs

Insist on Gillette... don't be persuaded to buy inferior blades on the grounds that they are cheaper. They may be lower in price, but they are not economical in use.

The best way to reduce your shaving costs is to buy Blue Gillette blades and a Gillette razor. They fit each other exactly, because they are designed as a unit; and they combine as a team to give the maximum number of perfect shaves with every blade.

MURDER CHARGE WITHDRAWN

Ship's Seaman Discharged

The charge of murder of Tse Tong, ship's comrade of the Blue Funnel s.s. Tyndarus, preferred against Chan Ki, 24 year old seaman, was withdrawn yesterday on the ruling of the Magistrate at the Kowloon Court, Mr. Barnett, that sufficient incriminating evidence was lacking.

Committal proceedings against Chan Ki reached conclusion after lengthy cross-examination of the principal witness, Cheung Si, by Mr. C. A. Sutherland Russ, appearing for the defence.

Cheung Si, sailors' cook allegedly a witness to the strange behaviour of accused in the early hours of August 2, and subsequently, stated in evidence that about 2.50 a.m. on August 2 he had seen Chan Ki walking about and that, on his questioning him, Chan Ki had told him to keep silent.

This statement was not in accordance with the previous statement made by witness to the police, where he said that accused had threatened to kill him.

ADVANCED MENACINGLY

Yesterday, witness modified this to a statement that accused had advanced menacingly upon him. On further questioning by Mr. Russ, witness said that he could not distinguish, being yet sleepy as to whether the expression on the face of accused was menacing.

Witness also stated that he had, about 2.50 a.m., heard a cry of "save life." He got up from his bed to investigate, and met Chan Ki abroad at this unusual hour.

Witness had not known anything of the murder until the muster of the crew after 8 a.m. on the same day. Later, Chan Ki had told him, "Don't talk," when he met him on deck. He had said this in a not very loud, though not unusual, tone of voice.

WOMAN WHO CARRIED BAD COINS

Committed To Sessions

Appearing on a charge of possession of 1978 counterfeit ten-cent pieces, Chan Shiu, 42, a married woman, was committed to stand trial at the Central Court yesterday. District Watchman Chau Kwong, who was on duty in Cohnaught Road Central on August 18, received information that defendant was carrying counterfeit coins. He followed her and arrested her as she was ascending a staircase leading up to No. 13, Wing Tak Street.

Li Kit, a watchman on board the s.s. Taishan told the Court that defendant was a frequent traveller between Hong Kong and Canton. On August 18, he saw defendant on board the steamer as she left Canton. Defendant was carrying with her a basket.

A ticket seller on the vessel named Wong Sum said he had been working on board the ship for more than five years and during his time had seen defendant travelling many times.

THREE KILLED IN STREETS

There were 76 traffic accidents in the Colony last week, as the result of which three persons were killed and 42 were injured.

Of those killed, a Chinese boy, aged 13 years and a bicycle rider, aged 21 years, died from injuries received on falling from a moving lorry and a cycle in motion respectively.

A Chinese girl, aged 9 years, was knocked down and killed by a motor bus whilst running across the road.

COMMISSIONER OF PRISONS

Pursuant to Section 3 of the Public Officers (Change of Style) Ordinance of 1937, the Attorney General will move, at the Legislative Council meeting today, that the style of the offices of Superintendent of Prisons and Assistant Superintendent of Prisons be changed to Commissioner of Prisons and Superintendent of Prisons respectively.

AIR LINES IN BRITAIN

Selection And Licensing

The licensing authority for home air lines, authorized in an Order in Council issued on August 23, will shortly be constituted formally. The members of the authority will be Mr. A. M. Trustram Eve, K.C. (chairman), Major-General Sir Frederick Sykes, and Mr. F. R. Davenport.

The authority will probably begin to issue licences in about three or four weeks, but these will be provisional licences, and during what may be regarded as a period the penalty clauses will not apply, says The Times.

It would seem that the scheme for requiring every air line, in Great Britain to be licensed, and to satisfy certain minimum requirements before licensing, will be gradually introduced.

It was inspired by the Maybury Committee, which, in recommending its junction scheme for home air mail services, was also concerned with the removal of wasteful competition among companies operating air services over identical routes.

In the time which has passed since that Committee reported there has been some amalgamation of competing interests, and the use of the licensing measure as a means to compel amalgamation may not be necessary.

£10 A YEAR

For the present the Secretary of State for Air does not contemplate applying the Order in full.

When the regulations and machinery of the authority have been prepared, the main part of the Order will be brought into operation, but this will not include the clause prescribing a fine of £20 for any contravention of the Order and a fine of £50 or three months' imprisonment for a second or subsequent offence.

In effect the licensing system will begin on a voluntary basis. Licensees will have to pay £10 a year for licences other than the provisional ones which will be issued in the first instance.

The license may be cancelled if any of the conditions attached to it, such as maintenance of operating schedules, fares, and suitability of aircraft (all to be observed).

The authority will also be invested with discretionary powers and may take account in the granting of licences of the existence of other services in the area of operation, the possibilities of air transport in the area, the efficiency of existing services, the

financial resources and operating record of the applicant and the type of aircraft which it is proposed to use.

The maximum period for which licences may be granted will be seven years.

NO OVERLAPPING

The considerations which the authority may weigh indicate the intention to avoid overlapping and uneconomic competition.

The effect may or may not be to create virtual monopolies on certain routes. If such were the case, the power of the authority to withhold or cancel a licence or to grant a licence to a competitor should be sufficient assurance of efficient operation on the part of the licensee.

The project has some resemblance to the appointment of a Commissioner to license public road transport vehicles and services. There has been no sign of any particular enthusiasm for it on the part of operating companies. On the other hand, no company already engaged in operating home air lines has yet applied for permission to operate the junction scheme of the Maybury Committee, with the mail contracts which the Committee thought might be allotted to it.

TYPHOON AT HAINAN

(From Our Own Correspondent)

Canton, Aug. 31.

Over 230 fishermen in different parts of Hainan Island lost their lives and over one hundred of their fishing boats were sunk in a typhoon on August 25, according to a report from Pakhoi received here last night.

Only three sailing boats in Hainan harbour foundered and three men were drowned.

APPETISING SNACKS

It is useful to have at hand a variety of recipes for appetising snacks and odd-moment meals. These can often be made without any special ingredients; a survey of the store cupboard and larger shelves usually yields sufficient material for the ingenious housewife. Here are a few suggestions. Many of the savoury ingredients mentioned can be substituted by others which happen to be at hand.

First, a few ways of using up the remains of a ham. Bake some potatoes, cut them in halves, and snop out the centres. While still hot, brush thoroughly with pepper, salt, chopped parsley, a piece of butter, a beaten egg, and chopped ham. Pile the mixture back into the potato cases, sprinkle with buttered crumbs, and brown in the oven or under the grill. Or chop the ham, add some firm chopped tomatoes, and season well with pepper, salt if necessary, macaroni, and some grated onion. Put the mixture at the bottom of a well-buttered casserole, break eggs on top, season them, and pour some milk or cream over. Bake in the oven until the eggs are set but not hard. Or cover slices of buttered toast with chutney or any other chopped pickle. Chop the ham, which should be lean, and mix with a little thick white sauce or whipped cream; season with plenty of pepper and sprinkle with grated cheese and breadcrumbs. Brown quickly under the grill. Ham combines well with macaroni or spaghetti. Boil and drain the macaroni. Cut up a few mushrooms and stew for a few minutes in a little milk and butter. Add the chopped ham and some tomato sauce. Put this in a dish in layers with the macaroni, cover, and bake for twenty minutes.

SHRIMPS ON TOAST

A bottle of shrimps or prawns is useful in the larder for making savoury snacks. An easily made savoury is shrimps on toast. Make some fairly thick white sauce in the usual way, using a dessertspoonful of butter, a dessertspoonful of flour, and a cupful of milk. Flavour with pepper and anchovy essence. Chop the shrimps roughly and heat up in the sauce. Crab or lobster savoury can be made in the same way. Serve on buttered toast. Or put the mixture in scallop shells, spread, thickly with buttered crumbs, and brown under the grill. To make a more substantial dish put a poached egg on each portion, pour a little of the sauce on top, sprinkle with buttered crumbs, and brown under the grill. Or take a large tomato for each person, cut a slice off the top, and scoop out some of the soft inside. Put this into a saucepan with a piece of butter, a cupful of chopped shrimps, a tablespoonful or so of breadcrumbs, and half a chopped onion. Season with salt, pepper, and chopped parsley and cook for a few minutes. Bind with a beaten egg and put the mixture into the tomato cases. Bake in a moderate oven until soft.

TOMATOES

Tomatoes, tinned or fresh, are a useful standby for light savoury meals. A simple dish is tomatoes au gratin. Put layers of fresh or tinned tomatoes in a pie-dish alternately with breadcrumbs. Dot with butter after seasoning each layer, and bake for about half an hour. This can be varied in many ways. Alternate the tomatoes and crumbs with slices of slightly browned onion, or sliced mushrooms, or cooked rice or macaroni, or leftover vegetables, such as creamed spinach, asparagus tips, or artichokes, or grated cheese, or

Many Delicious Ways Known Of Serving Potato

Surveys reveal that the average housewife knows only a few ways of preparing potatoes, when actually there are at least 300. Among the simple and economical potato dishes are Duchess potatoes, Shepherd's pie, potatoes au gratin, and baked-potato soup.

Let your main dish decide your method of preparing potatoes. For instance, scalloped or au gratin potatoes are especially good with cold meat. For a Friday main dish, prepare fish with a rich sauce, and top with fluffy mashed potatoes, as a variation of the usual Shepherd's pie.

Let the following recipes, all of which are easy to prepare, supplement your present collection of potato dishes:

CREAM PARSLEY POTATOES

12 small new potatoes
1 cup milk
1 cup coffee cream
2 tablespoons butter
1 teaspoon salt
Finely minced parsley
Wash potatoes thoroughly, peel and cut into quarters. Put into rapidly boiling, salted water, and cook 5 minutes. Drain. Scald the milk, cream, butter and salt in the top of a double boiler, add the partly cooked potatoes, and continue cooking until they are tender—about 20 minutes. Add the parsley, and serve very hot.

SWEET POTATO CROQUETTES

6 medium sized sweet potatoes
3 tablespoons butter
3 tablespoons milk
1 egg well beaten
1 cup dry breadcrumbs
6 marshmallows
Fat for deep frying

cooked haricot beans, or flaked fish or flaked haddock, or tinned salmon.

Cook the potatoes until tender, then rice or mash, and add the butter, milk, and salt, and pepper to season. When the mixture is slightly cool, shape into small croquettes, roll in the breadcrumbs, then in slightly beaten egg, and again in crumbs. Fry in deep, hot fat, and drain on soft paper. Just before serving, top each croquette with a marshmallow, and set in a hot oven or under then broiler flame until the marshmallow melts. Good with baked ham or on a vegetable plate.

POTATO ROLL

3 medium-sized cold boiled potatoes, rice
1 cup sifted flour
1 teaspoon salt
1 cup butter
4 eggs, separated
1 cup cream

Cream the butter until fluffy and beat in the egg yolk. Add the rice, potatoes, flour, salt, and cream. Beat until smooth, and fold in the egg whites that have been beaten until stiff. Line a jelly-roll pan with wax paper, grease well, and spread with the potato batter. Bake in a hot oven 20 minutes. Turn onto a clean towel and spread the roll with a creamed meat mixture. Roll quickly, as for a jelly roll, and serve immediately. Creamed sweetbreads or a creamy chicken hash (make a good filling for the roll).

DUTCH POTATO CASSEROLE

2 cups diced potatoes
1 onion, diced
2 stalks, celery, sliced
2 cups canned or fresh corn
2 hard-cooked eggs
2 tablespoons butter
2 cups milk
Salt and pepper to season
Pastry

Cook the potatoes onion and celery in boiling salted water until the potatoes are partly done. Drain and add the corn. Arrange in a casserole with layers of hard cooked egg slices. Pour in the milk, season with salt and pepper, dot with butter, and cover with rich pie pastry. Bake in a hot oven for 30 minutes.

CREAM OF PEA SOUP

1. No. 2 can peas
1 slice onion
1 tsp. sugar
1 tsp. salt
1 tsp. pepper
2 tbsp. butter
2 tbsp. flour
1 cup Carnation Milk
1 cup water

Drain and measure liquid from peas and add enough water to make 2 cups of liquid. Add peas, onion, sugar, salt, and pepper and simmer for 15 minutes. Rub through a sieve. Make a white sauce of butter, flour, and Carnation milk diluted with water. Add paprika. Combine pea mixture and white sauce and serve while hot. Serves 6.

CREAM OF POTATO SOUP

3 medium sized potatoes
2 slices onion
2 tbsp. butter
2 tbsp. flour
1 tsp. salt
1 tsp. pepper
1 tsp. chopped parsley
1 tsp. celery salt
2 cups Carnation Milk
2 cups potato water

Cut potatoes in small pieces and cook with onion in boiling salted water until tender—use 3 cups of water and 1 teaspoon salt. Drain (saving the potato water) and rub the potatoes through a sieve. There should be about 2 cups of potato pulp. Make a white sauce of the butter, flour, seasonings, Carnation, and potato water. Add slowly to the potatoes, stirring to keep smooth. Reheat in the double boiler. Sprinkle with chopped parsley and serve very hot. Serves 6.

Dear Sirs,
I have been suffering from Rheumatism and Rheumatoid Arthritis for 12 to 14 years. I have taken a course of your 'ASPRO' Tablets—three after each meal—and often, when in pain, have taken an extra dose before going to bed.
I obtained very great relief from this treatment; in fact, I do not know how I could have continued to move about without 'ASPRO'. The pain has gradually improved, and now I find I need to take 'ASPRO' only occasionally. I can confidently recommend 'ASPRO' to all sufferers from rheumatism.

CHANGING OUTLOOK OF ENGINEERING

Professor Southwell On Uses Of Knowledge

In the Engineering Section, Professor R. V. Southwell, Fellow of Brasenose College, Oxford, recently delivered his presidential address on "The changing outlook of engineering science." He dealt with what should be the scope and aims of academic teaching of the science; what should be the aims of engineering research; and what should be the relations of the science to the community.

After showing the difference in pre-war and post-war ideas on all three topics, and repudiating any share in a current pessimistic outlook which he noted, Professor Southwell said that in the actual work of an engineering faculty today the teacher was faced with conflicting demands.

More and more specialized knowledge was required in engineering practice, and yet industrialists asked not for specialists or trained technicians, but for men educated to take wide views, trained to think, and qualified to negotiate, and to control.

The answer was not to lengthen or intensify academic courses, but to recognize the strictly limited power of absorption and assimilation (as distinct from power of memorizing) of the average student, to cut down the subjects of instruction, and to aim at developing personality.

Honours courses should train recruits for industry—i.e., should ensure an adequate assimilation of engineering principles by men who were to start a professional or industrial career. Men of really first-class ability would not be detected by written examinations.

MODEL MAKING

Turning to research, Professor Southwell said that for the engineer the outlook must differ from that of the physicist.

The engineer was necessarily limited to practical problems, and these he would have to solve without the freedom and the command of the material resources of the pure scientist; but this meant that there was still scope for the academic engineer, who might go on making profitable use of methods (i.e., visualizing conceptions, or model making) even now that the physicist was inclined to condemn these.

On the ethics of engineering science—i.e., its public relations, Professor Southwell strongly repudiated undue humility, and protested against the notion that because the range of engineering included guns, battleships, aeroplanes, tanks, and other instruments of destruction, engineers more than others were to be regarded as responsible for the horrors of modern war.

The engineer was responsible as much as any man, but no more than any man. It was as a citizen, not as an engineer, that he shared responsibility.

Clear thinking was needed today on this matter. People must realize that knowledge was of good and of evil; it was not in itself moral; good and evil were its opposite sides.

He had no sympathy with the plea for a cessation of scientific activity, though he recognized

Haifa To Baghdad Highway

Travellers between Haifa and Baghdad, along the present oil pipe-line route, will in two or three years' time be able to use a modern, transdesert track which, when completed, is to be the longest highway in the world with such an even grade.

Preparation are now being made to construct a far-surface highway between the Mediterranean port in Palestine and the capital city of Iraq.

Major Briggs, Royal Engineers, and a small staff of experts have arrived to undertake the vast project.

The cost of the road will be £600,000, and employment will be given to many hundreds of labourers for two years.

By linking up Iraq, Palestine and Trans-Jordan, it is forecast that the speedway will make the proposed Haifa-Baghdad railway superfluous.

It is pointed out that the Black Sea will be easily accessible once the new road, running for 800 miles due east from Haifa, has been constructed.

It was arguable that on balance knowledge was undesirable.

But when men talked of "beneficent" and "destructive" science as though they were free to pick and choose, this only showed that they had not even begun to understand what science was.

Rather than seek to defend scientific activities from the charge that evil could come of knowledge misapplied, they should undertake the harder task of instilling into the mind of the public a clearer notion of the aims with which real scientific work was done.

HOSPITAL NURSE A "WORKMAN"

Decision On Appeal

The Court of Appeal, by a majority, decided recently that Miss Annie Wardell, a nurse at Farnborough hospital, of the Kent County Council, was a "workman" so as to qualify for compensation under the Workmen's Compensation Act.

On June 15, 1927, Miss Wardell's face was injured by the explosion of a tin of antiphlogestine, a medicated paste, while it was being heated. Her face was permanently scarred. Judge Clements, in Maidstone County Court, declined to award Miss Wardell compensation. Giving judgment, Lord Justice Slesser remarked that the county court judge did not appear to have considered that nurses were the servants of Kent County Council, but this appeared to be contrary to the evidence and the admitted facts.

Lord Justice MacKinnon agreed with this decision, but Lord Justice Greer dissented. Leave to appeal to the House of Lords was given, and the case was remitted to the County Court for the amount of compensation to be fixed.

WELL-KNOWN RENO JUDGE TO RETIRE

A district judge in Reno, Nevada, who has granted thousands of divorces, including of Barbara Hutton, now Countess Hargwitz-Reventlow, from her first husband, the late Prince Alexis Mdivani, has decided to retire.

He is Judge Thomas Francis Moran, aged 70, who has served over 27 years in the court.

Among the cases he has heard were those of many film stars. One was the suit of Jack Dempsey, former heavyweight champion of the world, when he sought a divorce from his wife, Estelle Taylor, film actress.

He also presided at the divorce of Ann Harding from her first husband, Harry Bannister.

"A WEALTH of HEALTH"

"I mean to express with all my heart that your Kalzana has given wonderful results in my little girl, who was ailing for some time," writes a grateful mother.

If your Child is ailing then give it Kalzana

If any of your children are delicate and irritable, suffer from delayed teething and weak bones, it is more than probable that a lack of minerals is the cause of the trouble.

Give your children Kalzana tablets or powder for a few weeks and you will soon see the difference in their health. It strengthens the cells of blood, body and nerves, increases the power of resistance and makes bones strong, and teeth white and healthy.

Give Kalzana to the grown-up members of your family, and they, too, will enjoy continual good health.

Kalzana

THE MINERAL FOOD FOR BETTER HEALTH

Obtainable at all Chemists in tablet and powder form.

Kalzana Tablets are sold in bottles of 75 and 45. Kalzana is the most economical of all calcium preparations.

FINED BY THE MINUTE

A crowd of Jews appeared in front of a magistrate in Jerusalem, charged with breaking the curfew law.

They pleaded that they had broken the law only because they had remained late at prayers in their synagogue.

The magistrate, puzzled, thought for a moment. Then he had an idea.

"Curfew is at 7 o'clock in the evening," he said. "I shall fine you at the rate of one piastre (twopence-halfpenny) per minute."

Offenders caught out by the police between 7.10 and 7.25 p.m. were fined from 2s. 1d. to 5s. 2 1/2d. each.

It was the beadle of the synagogue who was mulcted the most. He had stayed behind to clear up prayer-books and other articles after the worshippers had left. He was fined fifty minutes worth—10s. 5d.

TORPEDO-BOAT FLOTILLA

It is notified that Lieut. Comdr. G. D. Clark, a torpedo specialist, will be in command of the No. 2 Motor Torpedo-boat Flotilla which is to be stationed at Hong Kong. Three of the boats are now en route to the Colony by steamer, and the remaining three will follow next month.

Lieut. Comdr. Clark has been in the service since 1920. Prior to his new appointment, he was torpedo officer of the battleship Royal Sovereign, and has been serving in charge of the motor torpedo-boats since June.

FINE ADVENTURE PICTURE

"Undersea Kingdom" showing at the Queen's Theatre today. Topping the impressive cast is Ray "Crash" Corrigan, new, sensational serial star, whose perfect figure was seen on magazine covers and in advertisements before he entered pictures as the stunting double in the famous "Tarzan" pictures.

Famous William Farnum, one of the screen's best known villains and powerful dramatic artist, plays a most important role as ruler of the undersea city, Jack Muhiar, a screen favourite for years, and Lon Chaney, Jr., son of the famous screen "Miracle Man," also are in featured roles.

This is thrilling adventure picture of a fantastic land and men.

JOE E. BROWN'S LATEST

There are not many people as funny as Joe E. Brown can be when he put his mind to it. And he really concentrates in his latest picture, "Wide Open Faces," which starts its local run at the King's Theatre today.

As an amateur detective he's just too good to be true. Lyda Bobert, Allison Skipworth, Jane Wyman, Alan Baxter, Lucie, Lucien Littlefield, Berton Churchill, Barbara Pepper, Sidney Toler and Joseph Downing are in the supporting cast.

Japanese Imperialist Aggression Is On Eve Of Bankruptcy

SINO-BRITISH RELATIONS ANALYSED

In a leading article the influential Ta Kung Pao discusses Sino-British relations in the light of the statement of the Times that Britain would not consider a cynical deal with Japan at the expense of China.

The Ta Kung Pao states:—"When we consider the events that have taken place in Japan and the expressions contained in the Times leading article, we in China have grounds for having confidence in Great Britain, and that the basis of friendship existing between the two countries will be unchanged."

"During the past 10 years the young Japanese militarists have been nurtured in an atmosphere of anti-Westernism in general, and have been taught that Britain is the main obstacle to Japanese expansion in the Far East. Antagonism against Britain approximates to a similar feeling against Soviet Russia."

"It is true also that certain political and commercial circles in Japan for their own interests, and to gain the favour of the militarists, have well-nursed the idea. Together they have cherished the idea of lowering British prestige and of finally driving Great Britain from the Far East."

NOT GONE SMOOTHLY
"Since September 18, 1931, the Japanese militarists have steadily gained control of all authority in Japan, and anti-British as well as anti-Soviet activities have been intensified. The course of the war in China however has not gone smoothly. And its development into a war of attrition is causing the Japanese to seek means of bringing it to a termination. On the one hand, they have despatched large forces to the attack on Wuhan, while, on the other, they have spread rumours of peace. In this latter way they have hoped to weaken the united nature of our resistance."

"In addition their diplomacy has been aimed at disrupting the good relations that exist between our country and other

TRIBUTE TO DON COSSACKS

High tribute to the standard of entertainment provided by the Don Cossack Choir was paid in a letter to the Daily Press received yesterday from a reader in Saigon. In his letter, dated August 25, the writer states: "Last night was their sixth concert and His Excellency the Governor General attended. They are to give two more concerts before they leave for Hong Kong."

"The people in Saigon were rather sceptical at first but after their first appearance their success has been phenomenal."

"The papers are full of them and they have virtually taken the place by storm."

The Choir will perform for the first time in Hong Kong at the Queen's Theatre today at 9.30 p.m.

NO DEFECTION
"It is not strange that attempts of General Ugaki to draw Britain to Japan's side have failed in the light of the intense anti-British feeling that pervades military circles in Japan. In these conditions and on our knowledge of facts we have the fullest confidence that Great Britain would not desert China at this time."

"The policy of Japanese Imperialist aggression is on the eve of bankruptcy. Her attempts to conquer China militarily are failing. Japanese diplomacy cannot regain the confidence of other countries in the face of perfidy and barbarism of her military groups. And the people of China by their resistance are hastening the eventual collapse of the baneful influences in Japan working for permanent disorder in the Far East."

"We have confidence in our future and our victory. At the same time we are deeply thankful for the friendship of Great Britain and such friendly criticism as that of the Times."

"At the same time as expressing belief in Britain's refusal to compromise with Japan, we express the hope that Britain will accord China additional material help under her League obligations. By doing this China will be able to regain her full sovereignty and the conclusion of the war will bring lasting peace to the Far East."

"Peace will find the premises for building a New China. This is our fervent hope. And this cannot be too strongly understood by British diplomats and statesmen."

PRAGUE GOVERNMENT WORKING ON PLAN WHEREBY COUNTRY WILL BE DIVIDED INTO MANY CANTONS

Sudetens To Have Three Regions: An Independent Diet

KUNDT NOT AN ENEMY

Prague, August 31. It is understood that the Government is working on a plan, based on the Swiss Constitution by which the country will be divided into a score of cantons, including three in Sudeten German regions. The Sudetens will have an independent diet, as will the Bohemians, Carpathian Russians and Slovaks. The general Parliament in Prague, to which delegates from the cantons will be elected, will deal with questions affecting the whole country and also general finance, foreign affairs and defence.

All these proposals, however, are still in the elementary form, and before they can be discussed in detail with the Sudetens the question of principles laid down by the Sudeten Deputy, Herr Kundt, must first be solved.—(Reuter).

PRAGUE MEETING

Prague, Aug. 31. While the greatest secrecy is being maintained regarding the meeting yesterday between the President, Dr. Edouard Benes, and the Sudeten leaders, Herr Kundt and Herr Sebedowsky, it is obviously the beginning of fresh contacts which may mark the turning point in the whole situation.

The reason why the proposed meeting between Dr. Benes and Herr Henlein has been put off is not explained but possibly the Czech President preferred to see Herr Kundt rather than Herr Henlein, who has never taken the Oath of Allegiance.

Herr Kundt, as leader of the Sudeten Parliamentary Party, is regarded by the Czechs as an opponent, but is not stamped an enemy of the present regime.

POSITION EXPLAINED

Herr Kundt and Herr Sebedowsky are reputed to be moderate Sudetens and there is reason to believe that Dr. Benes has explained to them how far the Government is prepared to go towards mutual agreement.

If the Germans consider that the Government proposals meet their view on the two questions of principle on which they take their stand, namely, the recognition of their juridical, entity and full equality of status, then negotiations will be resumed with some hope of success.—(Reuter).

NO FURTHER STATEMENT

London, Aug. 31. The British Government will make no further statement as long as there is any chance of achieving a settlement of the Czech problem.

Reuter is informed that the Government still hopes and believes that such a chance exists, but it depends, firstly, on the extent and reality of the concessions the Czech Government is making or is prepared to make, and, secondly on the extent and nature of the influence exerted from outside on the Sudeten Germans, and on the spirit with which the Sudetens meet the Czech Government proposals.

There is no tendency in London to minimize or exaggerate the gravity of the decisions which have to be taken in the immediate future by both sides in Czechoslovakia and by their friends outside.

SUDETEN RESTRAINT

It has been observed with satisfaction in London that the self-defence order issued by the Sudeten leaders to their followers during the week-end does not appear to have been followed by any appreciable relaxation of discipline. On the Czech side it is confidently expected that the Prague Government will do its utmost to avoid incidents.—(Reuter).

WASHINGTON WATCHING

Washington, Aug. 31. President Roosevelt yesterday conferred with Mr. Cordell Hull, Secretary of State, who went to the White House after reading the latest dispatches from Europe.

It is expected that the U.S. Ambassador in London, Mr. Joseph P. Kennedy, will report to President Roosevelt today on his interview with the British Prime Minister, Mr. Neville Chamberlain.

The American Ambassadors in Berlin and Prague are also closely watching and reporting on the situation, the extreme gravity of which nobody here attempts to minimize.

DIRECT APPEAL

There is some speculation as to whether the United States Government will undertake more specific action in an effort to maintain peace. Such action might take the form of a direct appeal to Berlin and Prague by President Roosevelt or Mr. Cordell Hull.

Although officials naturally decline confirmation it is widely felt here that President Roosevelt would not permit Europe to drift into war without raising his voice and at least putting on record the abhorrence the American people will feel for any leader or leaders who deliberately break peace.—(Reuter).

FRENCH UNANIMITY

Paris, Aug. 31. Unanimous approval has been given by the French Cabinet to the policy followed during the past month by the Foreign Minister, M. Georges Bonnet.

It is learned in well-informed quarters that, following the Cabinet meeting, the position of France, vis-a-vis Czechoslovakia, remains unchanged, and that France will execute all obligations under the pact with that country. General Vuillemin, Chief of Staff of the French Air Force, left no doubt regarding this in the mind of German Ministers during his recent visit to Germany.

It is thus considered that any demarche to Berlin recalling France's undertakings towards Czechoslovakia would be superfluous, particularly as it is desired to avoid any action which might be misinterpreted in Germany.—(Reuter).

UNITED BRITISH OPINION

London, Aug. 31. In a speech at Calcutta yesterday, the Liberal Parliamentary Leader, Sir Archibald Sinclair, referred to Sir John Simon's speech on Saturday and said that in giving warning by the mouth of the Chancellor of the Exchequer the British Government had the whole country behind it.

It would be well, he thought, if those concerned realised that if they forced this issue they could not count on any dissension in British public opinion but that they would be confronted by a united nation.—(British Wireless).

BURMESE ASKED TO RESTORE GOOD RELATIONS

Rangoon, August 31. At a meeting with leaders of all political shades yesterday the Governor, Commander A. D. Cochrane, appealed for immediate

FURTHER EXPANSION OF U.S. NAVY

Washington, August 31. Admiral William D. Leahy, Chief of Staff of the Navy, stated yesterday that Congress would be asked for an increase of U.S. \$200,000,000 in funds for the fleet expansion programme.

Admiral Leahy's statement was made after he had conferred with President Roosevelt.—(Reuter).

NEW FRENCH WORKING HOURS DECREES MEET OPPOSITION

Paris, August 31. The Executive for the Paris region of the Workers' Unions has issued a manifesto attacking the decrees passed by the Cabinet yesterday to extend working hours and speed up the output of arms.

The manifesto calls on individual unions to be ready for any action the Confederation General du Travail (the French Trade Unions Congress) might require.

The administrative committee of the C.G.T. is meeting today.—(Reuter).

DOCKERS OBJECT TO HOURS OF WORK

Marseilles, August 31. A meeting of dockers last night decided to refuse to comply with the new hours of work and overtime scale.

A meeting of representatives of all Trade Unions has been called for today in support of the dockers.—(Reuter).

Warders Held For Death Of Prisoners

Philadelphia, August 31. Two warders, have been charged with homicide in connection with the deaths of four prisoners who were on a hunger strike in the jail here.

The accused have been ordered to be held for trial with bail. The prisoners were found naked in their cells in conditions which are compared by the Assistant District Attorney with the Black Hole of Calcutta.

The bodies were black and blue. The Coroner found that their deaths were due to scalding and that there were also signs of suffocation.—(Reuter).

action to restore good relations between the different communities.

In Mandalay, where there has been fresh outbreak of trouble, the police, who were heavily reinforced recently, were forced to open fire on the rioters.

Two Buddhist monks were wounded.—(Reuter).

Surprise Witness Called In Sensational N.Y. Trial

New York, August 30. John F. Curry, former Tammany leader, was yesterday called as a surprise witness in the trial of James L. Hines for corruption.

He caused a sensation when he alleged that Hines in 1933 requested the nomination of Dodge as District Attorney. Dodge—predecessor of the District Attorney who is now conducting the case against Hines—was elected.

Curry admitted that between 1929 and 1934, while he was leader at Tammany Hall, he asked the Police Commissioner several times to change the assignments of various police constables and detectives. Curry said he did this whenever requested to do so by a

Tammany district leader. Of the latter, Hines was the most powerful.

The Commissioner of Police invariably complied with his requests.

MISTAKEN IDENTITY

Mr. J. Stryker, counsel for Hines, is expected to try and prove that the defendant is a victim of mistaken identity and that witnesses have been confusing him with Larry Carney, who was the "trigger-man" or expert killer employed by the "Dutch" Schultz gang, and who was known as "the Deacon".

Carney allegedly fought beside Schultz in the biggest gang battle in New York's history in January, 1931, when both were severely wounded.—(Reuter).

QUESTIONS ABOUT COMMISSION TO BE ASKED IN COUNCIL

First Reading Of Four New Bills This Afternoon

With reference to the Report of the Commission which inquired into the alleged sinking of a fleet of fishing junks by a Japanese submarine near Hong Kong on September 21, 1937, the Hon. Mr. M. K. Lo will ask at the meeting of the Legislative Council today at 3 p.m. whether the Government is now in a position to give any indication as to when the Report will be published.

At a meeting of the Council on March 3 the Colonial Secretary, in answer to a question by Mr. Lo, said that the Report had been referred to the Secretary of State for the Colonies and that it was still under consideration and no instructions had been received as to its publication.

In pursuance to notice, the Hon. Mr. Lo will also ask:—

In regard to revenue in respect of water consumption:—

(1) According to actual receipts from January 1, 1938, up to the end of July, 1938, (or up to the end of the latest month in respect of which actual figures are available), what was the amount received in respect of 2 per cent. of the rates?

(2) In respect of the same period what was the amount received:—

i. For meter and fire service rental?

ii. For excess consumption?

iii. For shipping and construction supplies?

(3) In respect of the same period what would have been the revenue received if the charges for water had been on the basis set out in Appendix 2 to Sessional Paper No. 4 of 1938, with separate figures for the separate categories therein shown? thus:

Flat rates, million gallons at \$0.30.

Peak Supplies, million gallons at \$0.50.

High Levels, million gallons at \$0.40.

Shipping and Construction supplies, million gallons at \$1.00.

FOUR NEW BILLS

Four new Bills will be given first reading upon the motion of the Attorney General. The Bills are:—

1. An Ordinance to provide for and regulate the supply of water.

The object of this Bill is to repeal the Waterworks Ordinance, 1903, and the regulations made thereunder and to replace them by an Ordinance and regulations in accordance with modern requirements.

The Bill is drafted on the assumption that there is to be in future no general free allowance of water based on rateable valuation but that free allowances may be permitted in the case of hospitals and other approved institutions.

Provision has been made for the following new features:—

Power to demand deposits to cover payments for chargeable water;

Licensing of approved plumbers; Stamping of approved fittings; Charging fees for the privilege of using main water for flushing; Separate floor metering; and The representation of the water authority by authorized officers.

DOMESTIC SERVICE

2. An Ordinance to amend the Female Domestic Service Ordinance, 1923.

The Mui Tsai Commission recommended that the employment of a female under twelve years as a domestic servant should be prohibited by law, that the six-months time limit for prosecutions for the offence of bringing an unregistered Mui Tsai into the Colony should be removed and that a Mui Tsai shall cease to be a Mui Tsai on reaching the age of eighteen.

The object of this Bill is to implement these recommendations, other recommendations are being dealt with in other Bills or by amendments to the regulations and administrative action.

3. An Ordinance to repeal and replace section 45A of the Offences Against the Person Ordinance, 1865, as enacted by the Offences Against the Person Amendment Ordinance, 1929.

The following new section is substituted for Section 45A of the 1865 Ordinance:—

45A (1) Every person who takes any part in any transaction the object or one of the objects of which is to transfer or confer, wholly or partly, temporarily or permanently, the possession, custody or control of any other person for any valuable consideration shall be guilty of a misdemeanor and shall be liable to imprisonment for any term not exceeding two years.

(2) Every person shall be guilty of a misdemeanor and liable to imprisonment for any term not exceeding two years, who without lawful authority or excuse harbours or has in his possession, custody or control any person with respect to whom the temporary or permanent possession, custody or control has been transferred or conferred for valuable consideration by any other person within or without the Colony.

(3) Nothing in this section shall be construed as affecting the customary giving or receiving of presents on occasions of bona fide betrothals, weddings or adoptions.

(4) No prosecution under this section shall be instituted without the consent of the Secretary for Chinese Affairs; Provided that such consent shall not be necessary for the arrest of any person suspected of having contravened this section.

COMMISSION'S RECOMMENDATIONS

The Mui Tsai Commission recommended the revision of section 45A of Ordinance No. 2 of 1865 so as to remove the limitation which restricts its operation to minors, to alter the method of expressing the exclusion of marriage and adoption from the scope of the section, and to remove from offences of this nature the six months time limit for prosecutions imposed by section 20 of the Magistrates Ordinance, 1932 for the trial of offences which are not indictable.

NEW TERRITORY SANITATION

4. An Ordinance to amend the New Territories Regulation Ordinance, 1910.

The object of this Bill is to enable the Governor in Council to lay down simple general rules for the prevention and abatement of nuisances, it being considered impracticable at present to apply in rural districts the same laws and

RESUMPTION OF H.K.-HANKOW TRAIN SERVICE EXPECTED SOON

After two months' continuous group bombing by the Japanese planes, the bridges, railroad and beds along the Kwantien-Peking sector of the Canton-Hankow Railway suffered considerable damage.

The daily inundation of the river added difficulties to road repairing. The train service between Hong Kong and Hankow, and between Canton and Hankow, has long been suspended.

Up till the morning of August 29 the road repair work at every sector had been completed and service was resumed as usual.

Mr. Chen Yen-ching, Head Officer of the Canton-Hankow Railway, who previously personally inspected the repair work has returned to Canton. Mr. Chu Fei, the Air Defence Commander of the railway line, has also ordered reinforcement of defence.

As the line has been repaired it is believed that the Hong Kong-Hankow direct line will soon be resumed.

AIR FRANCE

The control tower at Kai Tak flashed a thunderstorm warning to the incoming Air France plane at 11 a.m. yesterday.

The Air France machine was forced to circle Hong Kong for half an hour and eventually landed at 11:40 a.m.

Passengers aboard the plane were: Mr. Julien Fontaine, Mme. Suzanne Fontaine, Mr. Shen Liang, Mr. W. L. Bond, Tsue Yee Pi, Li Tung Tsung, Herr Holts and Ling Kih Tai.

Several of them had travelled from the interior of China by Yunnanfu owing to the temporary cancellation of all Chinese inland air services.

The plane will leave Kai Tak tomorrow at 6 a.m. on the return flight to Hanou.

FORTHCOMING MARRIAGES

Two forthcoming marriages are announced:—

Mr. Alan Francis Fung Chung, student of No. 4 Percival Street, top floor, and Miss Wong Tam-yung, student of No. 10, Wai Yee Street, Tai Po Market.

Mr. Joseph Henry Pittam, warrant officer, Army Garrison Sergeants' Mess, and Miss Amy Gentry (nee Bosworthick) en route to Hong Kong on the s.s. Ranchi.

regulations as apply to the urban areas of Hong Kong, Kowloon and New Kowloon.

It is proposed in these rules to deal with nuisances which may be the subject of summary prosecution in England under the Public Health Acts. On finding any such nuisance, the inspector would request its abatement and, if it were not abated, apply to a magistrate to make an order. The owner or tenant of the premises on which the nuisance is found to exist would then have an opportunity of contesting the making of the order, and breach of an order, if made, would be dealt with under the ordinary law relating to summary proceedings before magistrates.

The Attorney General will also move the second and third readings of—

1. A Bill to amend the Sanitation Ordinance, 1935;

2. A Bill to make better provision for the prevention and punishment of sedition; and

3. A Bill to prohibit the importation of undesirable publications.

MUNIFICENCE OF THE HAW PAR BROTHERS

Recognition Made By Venerable Order Of St. John

The philanthropic principles and generosity in the cause of charity by the Haw Par brothers, Messrs Aw Boon-haw and Aw Boon-par, are once more evinced in coming to the assistance, as donors, of the Hospital at Cheung Chau which already bears their names and for which the Venerable Order of St. John has conferred on each of them the rank of Officer of the Order.

It will be recalled that these universally known and popular gentlemen have borne the cost of adding another floor to the original Hospital building, mainly with the idea of catering for early tuberculosis patients. But as a building without equipment cannot function usefully, these two gentlemen have agreed to bear the whole of the cost of furnishing the extension. A number of beds have been installed already, and other furniture and equipment will follow in due course.

Situated on the verge of the sea and open to invigorating and health-giving breezes for the treatment of tuberculosis patients and convalescents, the Cheung Chau Hospital is unrivalled, while visitors who have seen the institution are unanimous in their praise.

OPENED IN 1934

The main building was completed in 1934 and formally opened in November of that year. During 1937 the extension was added.

Although the Hospital has no endowment fund it is hoped that the munificence of the Haw Par brothers, who have done much in the interests of St. John both here and in the Straits, will inaugurate an endowment fund in the near future.

In the meantime it is interesting to learn that the new addition, while apparently idle, has provided accommodation for a Straits Red Cross Unit dispatched to serve with the Chinese forces, and still later afforded refuge to an American Mission School from Central China, which like other Chinese educational organisations was forced to seek refuge in this Colony.

TOC H CHAPEL IN A CATHEDRAL

Chichester Ceremony

(BY AIR MAIL)

Chichester, August 20. Chichester is the first English cathedral to provide for Toc H a chapel within its walls.

This afternoon, at a service attended by a large congregation from all parts of the county, the Chapel of St. Thomas and St. Edmund in the North aisle was set apart as the spiritual home of Toc H in Sussex.

At today's service the ceremony of lighting the Lamp of Maintenance was performed with the customary ritual by Mr. J. B. Hooper, of Brighton, as representative of Toc H in Sussex.

The Rev. P. B. (Tubby) Clayton, addressing the congregation, said Chichester Cathedral was the first one in Great Britain to recognize the work of Toc H by setting apart one of its side chapels to be a sort of homely guild shrine for the movement.

JAPANESE UNIT DECIMATED

Mahweiling, Kiangsi, Aug. 31.

By a ruse the Chinese troops guarding Chitao-ling (Cock Head Hill) in front of Lushan decimated a Japanese unit yesterday morning.

The Japanese unit composed of 300 men tried to climb up the hill to attack the Chinese. The latter on the hilltop lay down on the ground and pretended to be asleep. When the enemy got midway on the hill, they suddenly jumped up and showered hand-grenades on them.

The Japanese were taken aback by the surprise attack. As the hill is very steep, over 100 of them slipped, fell headlong down the hill and were killed. (Central-News).

JAPAN'S FINANCES

THE TALK given by Mr. Guenther Stein, the well-known author and authority on economics and finance, at the Rotary Club on Tuesday on the economic position of Japan, was interesting in more ways than one, especially as the speaker had been a resident in Japan for some years and his talk was based on first-hand information rather than "gathered material."

The speaker gave some well-founded facts about the first category of Japan's economic difficulties and stressed the point that these are being felt very intensely by the people of Japan.

Of course the propagandists and spokesmen of Japan (official and otherwise) are still trying to convince the world that Japan is in a very flourishing state and that, no matter how long drawn out the war will be, there is money in plenty in the coffers of the country to meet all demands.

BUT TO RETURN to Mr. Stein's address. He says that generally speaking the standard of living in Japan, which had been on the downward trend since the "Manchurian Incident," has continued to fall off, and since the beginning of the present hostilities this has been accentuated.

Retail prices have soared till they are now almost 60 per cent. higher than in 1931 while the real income of the average full-time worker has been steadily falling.

The biggest sufferer is, however, the farmer. Even before the war with China the income of the farmer was grossly insufficient, but since then it has become even worse. The prices of his products have been cut down but tools, fertilizer, clothing and household necessities cost a lot more now than they did before the war began.

The so-called "general mobilisation of commodities," which prohibits or restricts the popular consumption of many manufactures, and the use of numerous raw materials, of fuel, electric current, etc., in the production of goods for non-military purposes, is only now being enforced with that full vigour which will be most strongly felt by the smallest units of industry and trade.

The Government of Japan has admitted that the unemployment question will be most acute in the very near future.

IT HAS LONG been obvious and Mr. Stein's figures support the fact, that the finances of Japan are tottering and that if the war

FINANCE COMMITTEE MEETING

Sum Of \$242,911 To Be Considered

Supplementary expenditure to the extent of \$242,911 will be considered by the Finance Committee of the Legislative Council today. Among the more important items are:—

\$50,000 to the Public Works Department for the purchase of the land and buildings belonging at present to the Tung Wah Infectious Diseases Hospital at Kennedy Town.

It has been proposed that Government should acquire the premises in order to make the site available for possible future extensions to the adjoining Government Infectious Diseases Hospital. The transaction was informally approved by the Finance Committee in June, 1937.

OFFICERS' QUARTERS \$40,000 to the Public Works Department for the purchase of property situated at No. 534 Magazine Gap Road for use as Senior Officers' quarters.

It is stated that the return to Government by way of rent and saving in rent allowances will be six percent on the purchase price. \$40,300 to the Kowloon-Canton Railway for repairs to rolling stock due to the collision in Shatin on July 13.

BOMBING DAMAGE \$43,181 to the Kowloon-Canton Railway for repairs to one locomotive and two wagons damaged by bombing whilst in transit over the Chinese Section of the line.

\$50,000 to the Medical Department. The provision of \$140,000 in the Estimates has been found insufficient on account of the increase in the number of patients at Government hospitals by between one-quarter and one-third over last year's figure.

MEMORIAL FUND DRIVE

Hankow, Aug. 31. Sponsored by Messrs. Yu Yeh-ching, Chang Yuan-tai, Ho Teh-kwei, and other prominent Chinese leaders, a drive for a memorial fund for the late Mr. Hsu Sing-shan, well-known Chinese banker, who was killed in the recent C.N.A.C. plane outrage, has been launched in Shanghai.

The drive will continue until the end of October. A committee will then be organised to keep the fund and decide on its use. (Central News).

EUROPEAN FINED

Charged with continuing to travel on a bus after he had been requested to alight, Mr. T. B. M. Connolly was fined \$10 when he appeared at the Kowloon Court yesterday before Mr. Macfadyen.

Mr. Connolly was represented by Mr. J. M. D'Almada Remedios.

His plea was that he had bought a five-cent ticket when boarding the bus. This ticket he considered a contract binding on the Kowloon Motor Bus Co., the Company having to deliver the passenger at the stop where he wished to alight.

The defence alleged that the bus had not stopped at the station where Mr. Connolly had wished to alight. Mr. Connolly had refused to leave the bus until it would carry him back to the station which had been passed without a stop.

The bus was driven to the Kowloon City Police Station. There Mr. Connolly was charged.

CHOLERA RAGES IN EASTERN DISTRICTS OF CANTON

Several anti-cholera squads, organised by the Provincial Bureau of Public Health, left Canton yesterday for the Eastern district where cholera is rampant. About 7,000 persons in these districts have died and over 20,000 are stricken by the epidemic.

Other anti-cholera squads also left for the West River districts and for Luchow. In the south, where cholera has also broken out. The conditions in the western and southern districts are, however, not so severe as in the east.

Yuchow is also afflicted by cholera. Intensive propaganda is conducted by students to prevent the spread of this disease, states our Canton correspondent.

MAIL SALVAGED

Chungshan, Aug. 31. After great efforts, all mail carried by the ill-fated C.N.A.C. liner Kwelin has been salvaged.

The body of the plane, which had been raised above water, sank in the stream again owing to its great weight.

The bodies of Mr. Li Chia-sung and Mr. Chen Chien-wei are still missing. While the remains of Mr. Sing-shan Hsu, Mr. Y. Hu, and others will be shipped to their native towns for burial, those of Dr. Lu Yi and Mrs. Li Chia-sung will be buried here. (Central News).

CONVICT STAGES A SIT-OUT STRIKE

11 Hours On Chimney Top

Dartmouth convicts recently booted a fellow prisoner who had staged a sit-out strike on top of a 75 ft chimney stack, and cheered the warder who went to his rescue.

The convict, named Dawson who had served about twelve months of a sentence for house-breaking, ran from the parade ground where he was exercising and climbed the steam pipe which runs up the side of the chimney stack.

For 11 hours he sat on top of the stack, plainly visible to hundreds of holiday-makers who thronged the roads outside the prison.

He threatened to hit anyone who climbed up to him, and occasionally shouted that he would jump to his death.

Efforts to "smoke" him off his perch by stoking up the furnaces failed. But after watching his fellow convicts march back to their cells at the end of their day's work he shouted that he would come down.

Scaffolding was constructed, and he descended while prisoner watching from their cell window cheered the warder who climbed up to assist him and sent cat-calls echoing across the prison.

The man's action was a protest at the refusal of the prison doctor to certify his removal to hospital.

PASSPORTS NOT VALID.

Alexander Ivankevich, 33, a mechanic, and his wife, Valentina Ivankevich, both Russian subjects, were each fined \$10 by Mr. Edwards at the Central Court yesterday for entering the Colony without valid passports on August 29.

A missionary, Robert Boynton, 34, of America, was also fined \$10 on a similar charge.

UNCLAIMED TELEGRAMS

The following unclaimed telegrams are lying at the office of the Great Northern Telegraph Company:—

Chiffet, Hong Kong Jockey Club; Sang Cheong Pig Stall; Li Wal Yu, Luk Kwok Hotel 713 (3 telegrams); Wong Wing Lin, Luk Kwok Hotel 307; Teh Hang, 177 Wanchai Road; 0137; Yim, 5 Fook Kwan Road; 7060; 0945.

ALLEGED FRAUD

The case against Elfreda Souza, 17, of Station Hotel, charged with obtaining credit by fraud to a total of \$240 from A. Burukoff, of Nathan Road, will be heard by Mr. Barnett at the Kowloon Court on the afternoon of Wednesday, September 7.

Mr. C. A. Sutherland, Russ will appear for the defence.

Hello & Goodbye

—BY A.W. HYER—

The last two or three days have been quite agreeable, and we know you all have found them so when it came to the weather department. Just rain for those early airplanes and the rest of the day cool breezes and sunshine.

The truth to tell, we have been sitting on the end of Pier 1 swinging our toes in the water, enjoying life with our fishing line and cogitating on all the peoples who would like to go sailing away from our beautiful weather and knowing they could not—Ah! very, very few boats in.

We are not really onery, and just to show you here is some news about people gone but oh! no, not forgotten.

M. V. Gneisenau

PING! WENT THE hawser on that "not noontime last Friday when the "Gneisenau" was all set to snuggle up to the wharf. But after a small delay this delightful ship was all tied up and discharging many people from the north.

Visiting the Colony for two weeks will be Mr. S. L. Soong, of Shanghai.

This charming Chinese gentleman's trip is mainly one of business for his office, the National Industry Bank. It has been some time since his last call here and he intends to find a little time for the social activities.

A pleasant and successful visit to you. The beautiful and charming Mrs. V. T. Gardner returned from summer vacationing in Weihaiwei. Her young son sports a lovely tan and they are both happy to be back with Hong Kong friends again.

Sunk beneath sultriness, boxes, golf clubs, tennis rackets, and a sports coat was Mr. Charles Freeman down from Shanghai.

We do not know whether this man, and he must be by the name, all we could see were the feet; was hiding from us, disgusted with baggage coolies or if he was just resting from a delightful journey. Just the same we could not get any conversation going with one eye peeking through golf sticks and the other a suit case handle—So the score was "you are doing fine, hope you like Hong Kong. Hello."

Imperial Airways

"IT WAS SIX O'CLOCK in the morning"—Tuesday. We were sleepy as usual, everybody else was sleepy and one passenger was morning in his couch. The "Delphinus" was all set to be taken off for Bangkok by the brand new Captain J. N. Wilson.

Immaculate and well pressed with a huge pipe in his mouth waited Mr. Robert White, of Standard Oil of New Jersey. On his way to Bangkok, thence K.L.M. to Batavia and company office inspection. He reports, "I will be glad to come back to Hong Kong in January and I'll be spending more than a month here this winter."

We will be glad to have you add your pleasant self to the winter going-ons. Adios. A round triper is Doctor H. Todd, London being his destination. His trip is a personal one and will be short.

Members of his family were on hand to bid "Happy Landings" and were excited as he over his flying journey. We add our best wishes. And sleeping soundly not worrying or thinking about an airplane waiting for him was Mr. R. F. De Lasola. Imperial Airways' super service rose to the occasion, a telephone call at 6 a.m. brought this amusing person with full speed to the airport. In the plane he slidded and away to Bangkok and Batavia at 8:20 a.m.

Delphinus—Tuesday Arrival

QUITE REJUVENATED, spick and span, Imperial's airplane "Delphinus" called at Kai Tak 4:05 p.m. Tuesday.

The very handsome German gentleman Mr. E. J. Sauerland, of Shanghai, arrived from his flying trip to Europe, but all he would say was "Oh! You, hello," and away he ran.

A nice new human being arrived on the "Delphinus" Tuesday, Capt. S. Hoare, the future Captain of the Imperial plane. By way of all the details about this British gentleman, Senior Captain on the Hong Kong to Bangkok route, first call to the Colony, and we hope you find it pleasant, and he is very attractive to see. Hello, very glad to welcome you.

Mr. W. A. Cash, co-pilot has been transferred from his usual position as assistant on the "Delphinus" to the "Delphinus" this makes quite a combination.

Kashima Maru.

ANOTHER how-do-you-do to Mr. Y. Yashima the new Hong Kong Manager for the N.Y.K. Line.

Bombay was the last berth for this gentleman, however, he is glad to be in cooler climes, and looks forward to his duty in the Colony.

THE VERY NICE STEAMER of the Dutch Line will be visiting us for another week due to repairs. She will be ready to set forth for the south September 8th.

Note of Interest: The Prince and Princess Ferdinand of Prussia, who are spending their honeymoon travelling, are at present in Shanghai. They will arrive in the Colony within the next two weeks, and fly via Pan-American Airways Clipper, for a visit in Manila.

These two outstanding popular people have several friends in the Colony who are anxious to greet and welcome them.

Stamp Was Worth £10,000.

Owner Wanted 12s At First

(BY AIR MAIL) London, August 23.

A stamp worth £10,000 was put on sale at Los Angeles for only 12s—until the owner discovered his mistake.

A philatelist Mr. Warren du Bois, bought the stamp in a collection for which he had paid 260.

It was an American one cent blue issue bearing a Baltimore, Maryland first-day cancellation of August 17, 1861.

Before he discovered these details Mr. du Bois had offered the stamp for sale at 12s. It remained unsold. Then he inspected it more closely.

He deciphered the postmark, and on checking with experts found he had a rarity worth £10,000.

TWO TRANSATLANTIC FLIGHTS MADE

Berlin, August 31.

Two planes of the German Lufthansa Company completed the north Transatlantic flight on Monday, both flights being executed with complete punctuality.

One flight, namely that conducted by the plane Nordwind, left Horta (Azores) for New York at 1 p.m. on Monday and reached its destination 15 hours and 13 minutes later.

The return flight started from New York for Horta at midnight on Monday and reached its destination at 3:55 p.m. on the following afternoon. (Transocean).

VIOLENT FIGHTING BANK OF YANGTSE

Japanese, Though Aided
By Tear Gas, Lose Hill At
Moshan To The Chinese

ATTACK IN WEST OF SINGTZE IS ALSO REPELLED

Nanchang, August 31.
FIGHTING IS RAGING ON ALL FRONTS on the south bank of the Yangtze River with increasing violence.
In the Jinchang sector Moshan (Grindstone Hill), Hungshan and Maichuan (Saddle Spring), strategic points on the highway leading from Jinchang to Matou and Yangsin, remain the scene of bitter engagements, with the Japanese attacking these points being hurled back with heavy losses.
It is said that on one occasion the Japanese succeeded in occupying two-thirds of Moshan in a fierce onslaught under smoke screens and with the aid of tear gas. When the situation was tense, Chinese reinforcements rushed up, outflanked them and recaptured the hill.

An attempt of a Japanese column pushing from Jinchang southward to cut the Nanchang-Kiukiang Railway at Hwanglaomen, a station south of Shaho, was thwarted by the vigilant Chinese troops yesterday. Two Chinese columns intercepted the Japanese at Chowchialai, 10 kilometres northwest of Hwanglaomen.

In the ensuing engagement the Japanese were put to rout, leaving many dead and wounded on the battlefield.

In the Shaho sector on the Nanchang-Kiukiang Railway Chinese and Japanese artillery units had a fierce duel throughout yesterday. Japanese infantry and cavalry units which tried to rush the Chinese positions were repulsed.

JAPANESE TROOP TRAIN DERAILED

Chengchow, August 31.
A Japanese troop train was derailed at a point about 20 miles east of Hsiuwu, on the Taokou-Chinghua Railway, on Monday as a result of damage done to the track by Chinese guerrillas. Many Japanese were killed and wounded. Emerging from their hiding, the guerrillas attacked the derailed train and inflicted more casualties on the enemy.—(Central News).

GRAPHIC DETAILS OF AIR BATTLE OVER NAMHUNG

CHINESE PLANES' SUPERIORITY OVER JAPANESE RAIDERS

"Confirmation of the superiority of our planes and our airmen over the Japanese whenever we decided to challenge them was seen in the battle over Namhung in North Canton," declared the Ta Kung Pao yesterday.

"Yesterday's air battle was fought in a cloudless sky. The Japanese planes twelve in number passed over Chungshan district in the morning and the first alarm was sounded at 9.15 in Canton. The raiders passed over Humen, Nankang and touched the northern outskirts of Canton. One plane detached itself and flew back seawards. The other continued northwards.

"At 9.45 a.m. another flight of eighteen planes crossed over Chungshan in the direction of Paoan and Tungwan which they passed. The first flight of the raiders reached Mapa at 10.45 a.m. and the second flight reached Winkuan.

"Earlier in the morning two flights of our planes had taken to the air and were on patrol duty. The complete air-unit was under the command of Captain Wang. They awaited their prey at a high altitude.

"The enemy raiders were sighted over Namhung and were immediately engaged by our fighters. The battle took place over the villages of Shehsing, Chuchiang, Wen-yuan. Engaged by the Chinese fighters the Japanese broke formation and fled, but the faster pursuits hemmed them in and compelled them to fight.

"The air battle lasted over half an hour by which time four of the Japanese planes were shot down. Two more were seen in difficulties while the remaining five succeeded in escaping towards the sea.

"The second Japanese flight had as its objective the bombing of Shaokwan. They apparently learned of the combat in the air over Namhung and some planes were dispatched to reinforce the Japanese planes in combat. With the destruction of their comrades and the flight of others the reinforcement

JAPANESE SURROUNDED

Chengchow, August 31.
Following a counter-offensive, Chinese forces are surrounding the Japanese at Menghsien, on the north bank of the Yellow River. In northern Honan, Menghsien was lost to the Japanese on August 28.

Yesterday, a detachment of Japanese troops from Chung-yichien, south of Tsinnyang, attempted to move to Menghsien to reinforce their comrades, but were intercepted by Chinese units which forced them back.

With their main forces concentrated along the Tsiyuan-Menghsien line, the Japanese have made repeated attempts to cross the Yellow River in order to menace the western section of the Lunghai Railway, but without avail.

Various strategic points along the north bank of the Yellow River still remain in Chinese control. Crack Chinese troops have been rushed there to strengthen the defences.

A lone Japanese plane reconnoitred over the Palne and Tientsin crossings yesterday. Two bomb were released at Palne.—(Central News).

General Wu Te-chen
Pays Unofficial Call
On H.E. The Governor

GOVERNMENT HOUSE LUNCHEON IN HONOUR OF VISITOR

His Excellency General Wu Te-chen, Governor of Canton, will be entertained to luncheon by His Excellency the Governor of Hong Kong, Sir Geoffrey Northcote, at Government House today.

General Wu Te-chen, paid an unofficial call on Sir Geoffrey Northcote at 3 o'clock yesterday afternoon.

After his informal call on His Excellency the Governor, General Wu paid a courtesy call on H. E. Major-General A. W. Bartholomew, General Officer Commanding at 3.20 p.m., and on Commodore E. B. C. Dicken at 3.40 p.m.

Last night General Wu was entertained at a dinner, given in his honour by Mr. O.K. Yul, former Mayor of Shanghai.

At 10.30 a.m. today Major-General Bartholomew will pay a return call on General Wu and at 11 a.m. Commodore Dicken will pay a return call. Sir Geoffrey Northcote will return a courtesy call at 1.30 a.m.

A number of prominent Chinese leaders in Hong Kong will jointly give a tea reception in honour of General Wu this afternoon, while at 8 o'clock in the evening he will be the guest of honour at a dinner party to be given jointly by Messrs. Tu Yueh-sheng, Wang Hsiao-lai, Y. M. Chen and others.

Interviewed by a representative of the Central News Agency yesterday morning, General Wu stated that his trip to Hong Kong was for the purpose of paying a courtesy call on His Excellency the Governor of Hong Kong, which he had long had in mind, but had been prevented from doing by pressure of duties.

DEEPLY IMPRESSED
General Wu asserted that the officials and people in

FOREIGN
EXCHANGE
MARKET

Brisk Buying
Of Dollars

London, Aug. 31.
The foreign exchange market opened today with brisk buying of dollars again in evidence, consequently United States currency quickly appreciated to 4.8587 compared with 4.8587 last night.

Conditions, however, soon quietened down and following the fixing of the London gold price at 143/34 which, with the dollar at 4.8525 did not include any premium over the American shipping parity, the undertone for sterling became steadier.

Commenting on the recent fall in the value of sterling the Financial Times cites four contributory factors: First, deterioration of the trade position in Great Britain and the sterling area; secondly, the fact that the present season normally witnesses commercial demand for dollars; thirdly, the bear speculation; and, lastly, conversion of sterling balances to dollars resulting from the European situation.—(Reuter).

When questioned as to particular business investments in Hong Kong, Mr. Barretto smilingly replied, "I am a long time business man, any investment which is sound and safe arouses my interest."

The petite and charming Mrs. Barretto expressed her pleasure with "beautiful Hong Kong" and regretted leaving her three children in the south.

"I should like them to see this lovely scenery and harbour, and some day I know they will," she remarked.

Travelling with Mr. and Mrs. Barretto is Mr. Aldecoa on his first visit to the Colony which he has found very interesting and pleasing thus far. Also a keen student of the conflict in China and the relation of business and its reaction, he is enjoying one of his first vacations in a long time.

The Peninsula Hotel will be the quarters for the southern visitors during their stay in Hong Kong.

Kwangtung were both deeply impressed by His Excellency's last visit to Canton despite Japanese air raids, and were extremely grateful for the hospitality extended by the Hong Kong Government to the Chinese refugees passing through or sojourning in the British Colony.

General Wu further revealed that taking advantage of his visit here, he would summon the leaders of various Chinese circles to express the Chinese Government's appreciation of the enthusiasm displayed by the Chinese in the British Colony in subscribing to the Liberty Bonds, and the National Defence Bonds, extending relief to the refugees, contributing medical aid, and launching the "Offer Gold" Movement.

General Wu expressed optimism regarding the current situation. He pointed out that the whole nation had awakened to the national crisis and were presenting a united front in the struggle for national existence.

PROMINENT P.I.
BUSINESS MEN

(Continued from Page 1)

This trip to Hong Kong is mainly one of pleasure and relaxation. However, he is extremely interested in business and, particularly, since the war in China commenced. He firmly believes that due to the conflict, business between the Philippines and Hong Kong will improve steadily, more so than in the past.

"There are two countries in the Far East where investments are safe, here under the British Government and Manila under the Commonwealth and American flag," he said.

When questioned as to particular business investments in Hong Kong, Mr. Barretto smilingly replied, "I am a long time business man, any investment which is sound and safe arouses my interest."

Permanent "Offer Gold" Organisation For Canton

The enthusiasm with which the people of Canton participated in the "Offer Gold" campaign, which ended on August 19, as well as the number of petitions from different organisations for permission to continue, a meeting of the representatives of the Provincial, Municipal, Revenue and Police organisations and the Chambers of Commerce decided that there were good grounds for the continuation of the movement in a more permanent form.

The meeting was held at the Asia Building.

Mr. Lo Wei-chiang presided and reported on the amount of funds collected and its distribution.

Among the resolutions passed were that Mr. Chai Chang, assisted by a sub-committee, would deliver all articles and commodities donated in kind to the Canton Chamber of Commerce, which would have charge of auctioning them to the public.

On the petition of the Committee for relief work on Namoa and San Cho Islands that part of the funds be devoted to this cause, a resolution was passed that, in accordance with the regulations of

CZECH CRISIS

(Continued from Page 1)

No doubt the latest offers of the Prague Government will go a long way to satisfy the underlying principles of Herr Konrad Henlein's eight points, but it seems that the decision lies with Berlin and if the German factor could be eliminated the Sudetens are almost certainly willing to enter into discussion on details.—(Reuter).

THE ONLY WAY

London, Aug. 31.

The morning issues of the London papers today are alike in speaking about a general improvement in the international situation although they continue to show some uneasiness at the commentaries appearing in Germany.

The Daily Mail writes that the only way to reach a settlement in the burning minorities question is to induce Prague to make further concessions to the German population.

The Daily Express insists that the Czech Government will first have to make the Sudeten Germans a better offer before a solution can be found and charges the Czech Government with having delayed too long in reaching a solution of this kind.

The News-Chronicle states that Lord Runciman will propose a plan of settlement of his own should the present proposals of the Czechoslovakian Government prove unacceptable to the leaders of the Sudeten German Party.—(Transocean).

BRITISH RESPONSIBILITY

Berlin, Aug. 31.

The Berliner Lokal-Anzeiger points out that the British Government's policy is to effect a compromise between the Sudeten Germans and Czechs and declares that London is evidently quite confident that the Czech Government will do all it can to prevent incidents.

The Voelkischer Beobachter writes that the British Government has adopted a grave responsibility and must do its best to bring about a permanent, honourable and just solution.

The paper considers that this solution will provide that the Sudeten German demands will be made a foundation for further negotiations in the same way as the Prague plan which, the Voelkischer Beobachter declares, is to be attributed principally to British influence.

Referring to the British view that a certain relaxation has come about, the paper points out that it is impossible to force a plan on the Sudeten Germans on which Britain and the Czechs might have agreed upon previously.—(Transocean).

POLISH VIEWS

Warsaw, Aug. 31.

The Czechoslovakian question completely dominates the Polish press this morning.

In this connection, the papers draw attention to the decree of the French War Minister, retaining with the army for the time being all classes at present under arms including those scheduled to be dismissed on September 20.

At the same time, the War Minister is reported to have decided to call the 1916 and 1918 classes, thereby increasing the strength of the French Army by 250,000 men.—(Transocean).

SPANISH AMBASSADOR INSISTS ON WITHDRAWAL OF NORTH AFRICAN TROOPS FROM FRANCO ARMY

Paris, August 31.
The Republican Spanish Ambassador in London called at the British Foreign Office yesterday, according to the press reports from London, and discussed the withdrawal plan with Lord Plymouth. CHINESE CLUB'S WIN OVER ALL-STARS

Veterans' Good Show But Losers Not Full Strength

(By R.O.Y.)

In perfect baseball weather, local fans turned out in force, last Saturday, to see the charity match in which the Overseas Chinese Baseball Club decisively defeated a Hong Kong All Star team by eleven runs to two.

Before the game, speculation was rife as to what extent, Father Time had affected the staying abilities of the "Overseas" veterans. Any doubts, as to whether they could last out a hard fought seven innings battle, were quickly dispelled as the veterans held the All Stars scoreless, for the last four stanzas of the game, to run out easy winners.

Of a team that hit consistently well, Peter Wong was the outstanding batter, hitting twice in three times at bat to register a .667 average. Bill Hong Sing, the Craigengower cricketer, showed much of his former ability at the keystone sack and also got two bingles; at the Windy Alley, Pau Ka-ping, China's best-known goalkeeper, displayed perfect form to show that a baseball is as easily handled as the somewhat larger soccer ball, if one only knows how.

Defensively, C. T. Lee, at the initial bag, gave a most polished display and fans will be interested to know that he formerly played under the leadership of Abe Liu, present coach and brain trust of the local league champions. Much of the credit for victory must go to C. C. Lee, Overseas manager, who pitched winning ball to allow the losers only three scattered hits.

NOT TRULY REPRESENTATIVE

It was indeed unfortunate that the All Star team was not truly representative of the best side that could be selected from the local talent, many of Hong Kong's best players being unable to turn out, but full credit must be given to the losers for trying all the way. Only in one phase of the game did they have the better of the winners and that was at base stealing: Omar pilfered three and Tuffy Chinn two to help their side tally seven stolen bases to the winners' five.

"Doc" Molthen did a good job behind the plate and even C. C. Lee had nothing to say about the seven free tickets to first base that were awarded to the opposition.

This week-end will see the Chinese Baseball Club playing a double header. The League champions will play the "Overseas" in another charity match on Saturday afternoon and on Sunday at 9.30 a.m. are scheduled to clash with the British Empire in the postponed final of the Mamak International Tournament. The Chinese will probably play under wraps on Saturday, in order to conserve some of their strength for the more important championship game the next day, but should still be strong enough to give the "Overseas" team a severe test.

Earl Wong, first string pitcher, will probably be seen in the outfield with Wally Ching taking his place on the mound. Any other changes from the regular line-up, will be made during the game and most of the Chinese reserves will get a chance to show their paces. The regular Chinese line-up will go into action on Sunday morning, against the British Empire team, who, with Dave Leonard leading the same players that defeated the powerful Portuguese outfit, should go very close to lifting the Mamak Shield.

THIS WEEK'S LINE-UP

The probable starting line-ups for this week's games are as follows:

COLONY TITLE HEATS

Only two heats were decided in the Colony Annual Swimming Championships at the V.R.C. yesterday. Second Ladies' 100 Yards Free Style: 1st Heat: 1. Miss D. Hunt; 2. Miss V. Churn; 3. Miss Chan Fung-kwan; Time, 30 1/5 secs; Second Heat: 1. Miss I. Lopez; 2. Miss Sa Wai-ying; 3. Mrs. MacMahon; Time, 29 3/4 secs. Males' 100 Yards Back Stroke: First Heat: 1. K. R. Rummah; 2. Yeung Mo-kwan; 3. A. S. Hidsath; Time, 74 3/5 secs. Second Heat: 1. W. Lawrence; 2. Chan Kai-hing; 3. Lau Yiu-ting; Time, 72 2/5 secs.

Hardcourt Tennis

RUMJAHN BEATS PAUL KONG IN THREE SETS

Though Chinese Rallies Well In The Second Set

By F. Mela

Paul Kong, the former China Davis Cup player, and one of the leading exponents of the game in the Colony, was eliminated from the hardcourt tennis championships yesterday when he met H. D. Rumjahn, former Colony champion, at the United Services Recreation Club. The scores, in Rumjahn's favour, were 6-3, 3-6, 6-2. The tennis was good, but I have seen both Kong and Rumjahn playing better on grass courts. Still the large crowd that turned out to see the game was not disappointed for good class tennis was served up to them, especially in the first two sets.

Rumjahn settled down to his usual steady game right from the start and although Kong got in a few clever shots Rumjahn plugged away to take the set after conceding only three games.

KONG RALLIES

After this Kong asserted himself and playing Rumjahn at his own game, namely deep driving and placing from almost the baseline, Kong took the set after it had gone nine games.

It was during this set that we saw a glimpse of the old Paul Kong, cool and resolute, working his way up for a kill or an ace as occasion demanded. But youth had to be served and in the third set, Rumjahn, due to his advantage in the all-important question of years, forced the pace to win after only eight games had been played.

A GOOD WIN

It was a good win Rumjahn scored but despite the fact that he showed up so well against a player of Kong's class and experience, I do not think he will be able to win the title.

Tsui Wai-pui appears a dead certainty for that honour—he is easily fifteen better than the next best player in the Colony and I will not be at all surprised to see an all-Tsui final for his younger brother, Yan-pui, played very convincing tennis the day before to beat C. K. Chan, of Canton, in three sets.

SIRDAR RUMJAHN ALSO WINS While "H.D." was playing Kong his cousin-partner, Sirdar, had some useful practice against I. Agafuroff whom he beat in straight sets. It was a one-sided affair, Rumjahn winning as he liked.

Detailed scores of yesterday's matches were: H. D. Rumjahn beat Paul Kong, 6-3, 3-6, 6-2. S. A. Rumjahn beat I. Agafuroff, 6-3, 6-2. D. S. Sze and F. Grosse beat G. Divett and G. W. Sewell, 6-3, 6-3. Tsui Wai-pui beat Pang Oi-lan, 6-4, 6-2. A. Chan and J. Hsu beat E. E. Storey and J. J. Ferguson, 8-2, 6-4.

TOMORROW'S MATCHES Tomorrow Lee Wai-tong and A. Crawford will meet in their replay. They met on Tuesday when the game had to be left unfinished owing to falling light, the score then being Crawford 6-4, 9-11.

BLACK-OUT IN COLONY: OBJECTS EXPLAINED

(Continued from Page 1)

PREPARATIONS

It is suggested that under this heading the following action might well be taken:

(a) Preparation of the lighting restriction plans it is proposed to adopt for the premises etc.

(b) To ensure that all members of the household and the domestic staff are conversant with these plans.

(c) To remove all external advertisement lighting and illuminated signs, and any other lights which cannot be extinguished immediately.

(d) To obtain a stock of dark blue cloth and dark tissue paper etc. and cut it up into the required sizes and shapes.

(e) To place dark curtains in such a position that they can be lowered without any delay.

(f) To ensure that electric torches are in working order.

(g) To put your lighting restriction scheme into force for a trial run and remedy faults, if any.

It is hoped that during this period all concerned will use their own ingenuity and endeavour to think out the arrangements they will have to make in order to solve the very important problem of darkening their premises etc., in the shortest possible period of time.

NO GUIDE TO AIRCRAFT

It is vital that in time of war, hostile aircraft should not see the lights of a town at night. The aim should be to try and obtain a complete black-out of the Colony within three minutes of the sounding of the "air raid warning." Our object should be to ensure that as far as is practicable, hostile aircraft passing over the Colony at night would see no lights which might serve to guide them to a particular objective or assist them to determine their position.

It is not proposed to pass any special legislation in regard to the restriction of lighting, but to place reliance on the general public to do their utmost to darken their buildings etc. for which they are responsible.

In fact, the public are asked to co-operate wholeheartedly with the Government in an earnest endeavour to make a success of the proposed black-out.

GUIDE TO PUBLIC

The following information is furnished as a guide which the public are requested to observe.

Object to attain.—To darken your house of business premises etc. so that no lights are visible external to the building.

How this object can be attained.—Immediately the "air raid warning" is seen or heard:—

(a) turn out all unnecessary lights and remove the globes.

(b) obscure the remaining lights either:—

(i) by covering the lights with two layers of a dark and thick cloth, which should be allowed to hang down for a distance of two feet, the cloth being gathered together in the middle by a piece of string etc.

(ii) By inserting the globe (if electric light is used) in any empty fruit can or tin.

First, take the cover of the tin or can, cut or drill a round hole approximately 3/8 inch in diameter to allow the flexible lead or wire from the lamp holder to pass through. Drill a small hole, say 3/4 inch in diameter at the bottom of the can to allow light to pass through and give the small amount of illumination needed. Place the bulb or globe which has already been fixed to the lamp holder into the can. The cover of the can can then be secured to the can body by means of adhesive tape.

It is advisable to protect the flexible wire where it goes through the can cover by a turn or two of adhesive tape to prevent abrasion of the insulation.

(iii) by using low-powered blue or black coloured globes.

(iv) by shading with curtains or other heavy material all windows, skylights, glass doors or any exterior openings in parts of the house etc. where lights are likely to be used after dark.

REMOVING GLOBES

It is very desirable to remove the globes of all electric lights which it is not proposed to use during the black-out so as to avoid the possibility of their being turned on by mistake.

The best place for shaded lights is in the corner of a room, as in this position the walls of the room generally help to obscure the light.

All shaded lights should be so fixed that the beam of light points vertically on to the floor.

In order to avoid a reflection of the light from the floor, it is im-

portant that the beam of light should fall on some dark and non shiny surface.

If electric torches are used the globes should be covered with at least two thicknesses of dark blue tissue paper or dark cloth and, when in use, should be so handled that the beam of light is thrown vertically downwards.

ABSENCE FROM HOME

Should the head of the house be absent from home when the "air raid warning" is sounded, ensure that the whole of the family and the domestic staff are thoroughly conversant with the different types of air raid warning signals which will be used and the general scheme of lighting restrictions which the head of the house proposes to put into force.

It is suggested in business establishments, hotels, theatres, cinemas, etc. that when the "air raid warning" is sounded the managers of such establishments will take the necessary action to inform those people who may be within the buildings.

ELECTRICITY SUPPLY

Finally it should be noted that the private supply of electricity and gas will not be discontinued or curtailed during the practice black-out, and therefore responsibility for darkening will rest on every individual having under his control any form of lighting.

At previous black-outs, motor cars, motor lorries etc., and other vehicles have been sighted by observing aircraft. It is therefore requested that all owners and drivers of vehicular traffic should refrain, as far as is practicable, from running their vehicles once the "air raid warning" signal has been given.

All head lights and internal lights should be turned out. Side lights should be covered with at least two thicknesses of dark blue tissue paper or dark blue material.

During the "air raid" all vehicles when practicable, should be drawn into the side of the road where they are requested to put out all their lights, taking every precaution to park their vehicles in safe places so as to avoid the possibility of accidents.

ILLUMINATED SIGNS

This request is not applicable to the Fire Brigade, Police, essential services and medical services.

All illuminated advertisements and signs must be extinguished on the sounding of the "air raid warning" signal.

All street lighting except traffic control lights will be extinguished.

Trains arriving or leaving Kowloon should have all blinds drawn and arrangements made whereby the glare from the fire box can be screened. Stations should darken all lights but signal lights should not be interfered with.

All shipping in the harbour and ships entering the harbour should take the necessary steps to darken, but navigation lights both, shipping and aircraft, must be alight.

AIR RAID WARNINGS

The "air raid warning" signals which for the purpose of this exercise will be used at any time during the 72 hours "air raid warning" period are as follows:—

Searchlights. Immediately prior to the exercise searchlights will sweep the sky for a period of five minutes, and at the end of this time will concentrate their beams over the centre of the harbour for a period of ten seconds.

Over a period of one minute the brilliancy of all public and private electric lighting will be alternatively reduced and increased.

Aeroplanes fitted with electric sirens will fly over Hong Kong and Kowloon respectively, weather permitting.

All ships with steam up are requested, to sound their sirens for a period of one minute.

All private factories are requested to sound their hooters for a period of one minute.

An announcement immediately prior to the black-out will be made over the wireless.

It would be greatly appreciated if the Naval authorities, shipping companies and owners of factories would issue instructions to those concerned to the effect that the sounding of ships' sirens etc., and factory hooters should commence automatically as soon as the "air raid warning" is either seen or heard by any of the methods indicated.

ALL CLEAR SIGNAL

It is quite possible that in some isolated cases the "air raid warning" signals may neither be seen

GUERRILLAS WREAK HAVOC IN HOPEI

Peiping, August 31.

For five hours this morning railway traffic from Peiping to Shanhaikuan was brought to a standstill by guerrillas, who tore up the track on either side of Tientsin.

At Wangchuan, half-way between Tientsin and Peiping, the guerrillas tore up the track, set fire to the station and then attacked the nearby Japanese garrison, necessitating land reinforcements and air units being rushed from Peiping.

Guerrillas in east Hopei now greatly outnumber the Japanese garrisons along the railway, which are attacked every day at different places.—(Reuter).

JAPANESE FLEET AUGMENTED

Swatow, August 31.

The number of naval craft off the Swatow and Chaoan coast has been increased to eleven vessels yesterday.

Two Chinese fishing junks were seized and set on fire by armed Japanese launches. More than ten fisherfolk aboard the junks were all put to death.—(Central News).

PUPPET IN GRAVE CONDITION

Hankow, August 31.

A Shanghai despatch states that the condition of Mr. Chen Yuen, chief of the so-called Self-Government Association, a Japanese sponsored organ in Nantao, who was shot and wounded yesterday, is extremely grave.

Mr. Chen, before joining the Nantao government, was an assistant in the Japanese law firm of Murakami.

Mr. Chen's chauffeur, Hsu Kitan was also wounded during the affray.—(Central News).

WORLD CRUISE

Milan, August 31.

Two modern 7,000-ton cruisers of the Italian Navy, Duca d'Aosta and Eugenio di Savoia, sailed this morning from the naval port of Gaeta on a world cruise.—(Transocean).

LINDBERGH IN ODESSA

Odessa, August 31.

Colonel Lindbergh arrived here from Kiev yesterday afternoon. Today he will leave Russia and fly to England, via Rumania.—(Transocean).

No signal will be given to indicate the termination of the exercise, but it will automatically cease 45 minutes after the sounding of the "air raid warning" signal, when all lights may again be switched on and normal conditions resumed.

FOREIGN MAILS

Surcharged air mail letters may be posted in the ordinary post-boxes. They should be clearly marked "By Air Mail" and bear sufficient postage. Insufficiently prepaid letters may be taxed with double the deficiency or forwarded by Steamer Service, at the discretion of the Post Office.

Letters and Postcards for Europe (except Great Britain and Eire) and South America are forwarded "via Siberia" if so superscribed. Air Mail Service to Shanghai, Nanking, Tientsin, Tientsin and Peiping are temporarily suspended.

Parcel Post Service to the Province of Yunnan is temporarily suspended.
